

Call Module

Calling an external module from SAS:

```
CALL MODULE(<control>, module-name, argument-1, argument-2 ...,  
argument-n);
```

Example:

```
Data _null_;
```

```
    Statements to set up arguments for the call module  
    CALL MODULE ('ABC123', arg1, arg2, arg3);
```

```
Run;
```

For further details, visit **Programmer's Bookshelf** at <http://support.sas.com/documentation/> for SAS 9.2 or later

Or **SAS OnlineDoc** for “Earlier SAS Releases” in the same link for pre-SAS 9.2 releases
